DECLARATION ON THE EU DEFORESTATION REGULATION (EUDR) Regulation (EU) 2023/1115

(Manufacturer's Certificate)

We, **Solidplex GmbH**, as a manufacturer of laminated boards, declare in accordance with the EU Deforestation Regulation (EUDR) Regulation (EU) 2023/1115:

We consider it our responsibility to our environment to ensure that the natural resource wood is sourced responsibly and sustainably. We fully support the objectives of the EUDR to minimize global deforestation and forest degradation. Consequently, we have established and maintain a comprehensive due diligence system to ensure our products are deforestation-free and legally produced.

Solidplex GmbH operates with a robust management system that strictly documents all goods receipts, supply chain steps, and the overall flow of goods. We purchase timber and wood-based materials exclusively from suppliers and traders who verify that their products originate from land that has not been subject to deforestation or forest degradation after December 31, 2020, and comply with all relevant legislation of the country of production.

Through these stringent traceability measures and supplier compliance assessments, we have verified that the risk of non-compliant or illegally harvested timber entering our supply chain is negligible.
